

Our reference search is <https://demo01.houzez.co/search-results/>

We purchased filtereverything plugin to implement ajax conditional filed that work with the same grid design in Houzez and implementing parameters

1- search comes from filtereverything plugin design “before”

The screenshot displays a complex search interface with multiple filter categories arranged in a grid. Each category has a title and a list of options or input fields. The categories and their contents are:
- **status**: Two checkboxes, 'For Sale (23)' and 'Charter (4)'.
- **Type**: Three checkboxes, 'Sailboat (1)', 'Luxury Yacht For Sale (1)', and 'Luxury Yacht For Charter (4)'.
- **price**: Two input fields, one with '373' and another with '250000000', followed by a horizontal range slider.
- **Cabins**: Two input fields, one with '2' and another with '16', followed by a horizontal range slider.
- **Guests**: Two input fields, one with '4' and another with '20', followed by a horizontal range slider.
- **Length**: Two input fields, one with '95' and another with '940', followed by a horizontal range slider.
- **Build**: Two input fields, one with '1976' and another with '2020', followed by a horizontal range slider.
- **features**: A search input field with the placeholder text 'Search' and a checkbox labeled 'AMENITIES & ENTERTAINMENT (2)' with a plus sign to its right.

-what i made “after”

What i can't implement is

1-the map style after adding from the theme options not working properly and also i don't have the needed design code

2-the label to be placeholder for all the inputs

3- this dropdown select all and deselect

The screenshot shows a search interface with a sidebar on the left and a main content area. The sidebar contains:
- A checked checkbox for 'Radius 50 km' with a range slider.
- A dropdown menu for 'All Cities'.
- A dropdown menu for 'Bathrooms' with a red arrow pointing to it.
- A 'Price Range' section with a slider from '\$200 To'.
- A section for 'Other Features' with a blue bar.
The main content area has a dropdown menu for 'Status' which is open, showing options: 'For Rent', 'For Sale', 'Foreclosures', 'New Construction', and 'New Listing'. Above this menu are 'Select All' and 'Deselect All' buttons. Other filters visible include 'Type', 'Bedrooms', and 'Property Type'.

4-save search button

5-the price range to be text not fields
